DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. **Claims 1-4** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Independent claim 1 refers to a first "USP module" and a second "USP module". The specification does not specify what an USP module is. It is not possible for Examiner to know what Applicant had in mind and it is not feasible for Examiner to assume what constitutes an "USP module". Also, there is no telephone number on file for Examiner to contact (this is a foreign application).

Claims 2-4 are rejected by virtue of their dependency on claim 1.
